I have read the CSA Flower Share Application and have selected my flower share choice . I understand that this is a community supported venture and that, although the grower is committed to the best of his/her ability to provide high quality field-cut flowers, there are risks in agriculture that may need to be shared by the CSA members. These risks may be reflected in the yields of certain crops and minor imperfections. I understand that my payment entitles me to a share of flowers grown and harvested by The River Garden during the 2009 growing season and that there will be no refunds once the season starts.
